## One Week Online Workshop on Research Methods for Language and Literature Studies

A screenshot of a presentation slide. The slide is titled "THE CHANGING ROLES OF WOMEN IN LITERATURE" in bold, orange, uppercase letters. Below the title, there are two bullet points:

- Literature has witnessed the roles of women evolving through ages, but until recent times their depiction ranges from traditional, subjugated and marginalized to the extremely modern and liberated women.
- It seems that they have revived their lost fortunes, look glamorous, act different, break the norms, are sexually liberated and free thinkers.

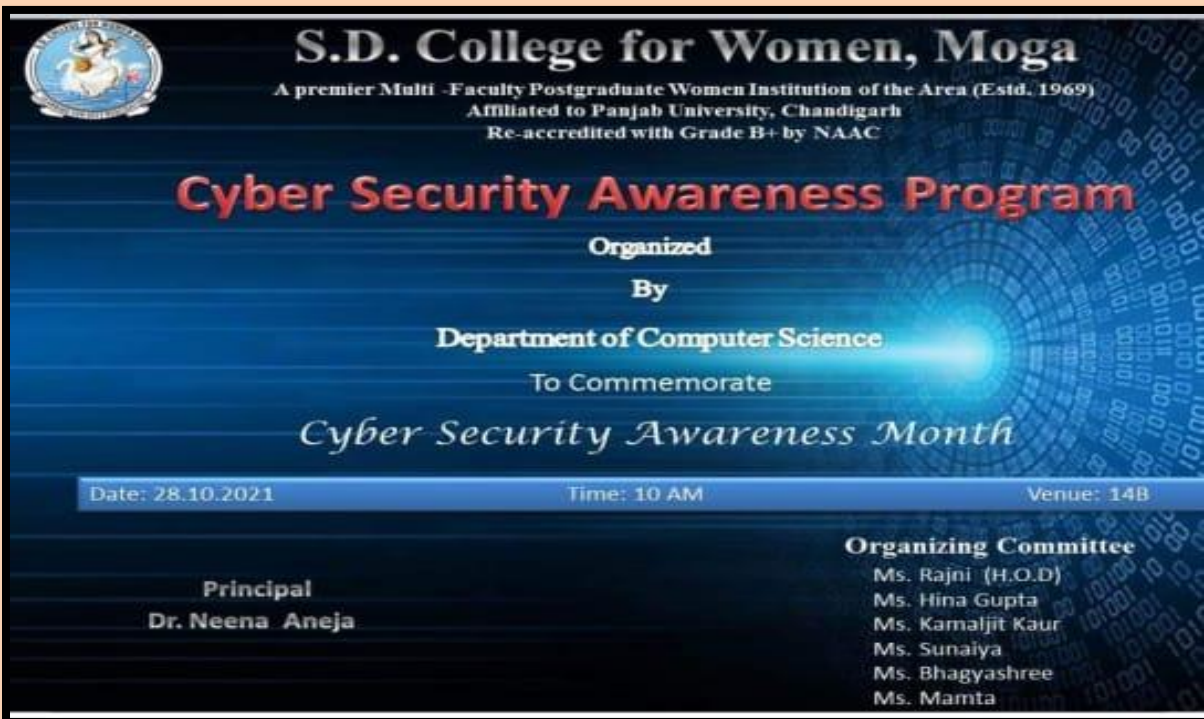

The slide is displayed in a software window. In the top left corner of the window, there is a red "REC" indicator. In the top right corner, there is a small video inset showing the same woman from the Zoom meeting above. The presentation software interface includes a sidebar on the left with a table of contents and a bottom status bar with the text "Click to add notes".

## Seminar on Green living

## Cyber Security Awareness Program

Organizing  
**A THREE DAY SYMPOSIUM**  
On  
**"How to write a Research Paper"**

### About the Symposium

Writing a research paper will help the students to develop or improve reading skills. It helps in developing reading for critical evaluation not just for the purpose of knowledge. It helps to develop reasoning skills as read any article or book to collect sources for research paper. It also develops writing skills, knowledge about the subject area. The skills that you learn from writing a research paper cannot be learned from other academic writing. The skill develop from the writing a research paper will help you in your future academic and professional life.
